

Dated: 30 June 2017

Adopted by the Board on 15 September 2017

Overview

The Board has created a framework for managing the Company, including internal controls and a business risk management process. This framework is reflected, in part, in the policies and charters described in this Statement of Corporate Governance.

The Board endorses the 3rd Edition of the ASX Corporate Governance Council Principles and Recommendations and this Statement outlines the Company's compliance with those Principles and Guidelines as amended from time to time.

The Board is responsible for the overall corporate governance of the Company, including the establishing and monitoring of key performance goals. It is committed to attaining standards of corporate governance that are commensurate with the Company's needs. The Company's Board of Directors has reviewed the recommendations outlined by ASX and notes that in the majority of instances the Company is meeting the standard required. In a limited number of instances, the Company has determined not to comply with the standard set out in the recommendations, largely due to the recommendation being considered by the Board to be unduly onerous for a Company of this size. Recommendations which the Company does not comply with are highlighted in this report.

The Company's corporate governance policies are located on the website.

Principle 1: Lay Solid Foundations for Management and Oversight

The Company's practice:

The Board considers that the essential responsibility of Directors is to oversee the Company's activities for the benefit of its shareholders, employees and other stakeholders and to protect and enhance shareholder value.

Responsibility for management of the Company's business is delegated to a committee of the board, the Executive Committee, comprising all non-executive directors, the Executive Director and the Chief Executive Officer. The Chief Executive Officer and Executive Director are responsible for managing the Company's activities reporting through the Executive Committee.

The Executive Committee meets regularly. The Board has established a delegated authorities policy with tiered levels of approval set for the Board, the Executive Committee and senior management in respect to expenditure commitment, employment and contracting.

Further, the Board takes specific responsibility for:

- Contributing to the development of and approving corporate strategy;
- Appointing, assessing the performance of and, if necessary removing senior executives, including the company secretary;
- Reviewing and approving business plans, the annual budget and financial plans including available resources and major capital expenditure initiatives;
- Overseeing and monitoring:
 - Organisational performance and the achievement of strategic goals and objectives;
 - Compliance with the Company's code of conduct;
 - Progress of major capital expenditures and other corporate projects including acquisitions, mergers and divestments;
- Monitoring financial performance including approval of the annual, half yearly and quarterly reports and liaison with the auditor;
- Ensuring there are effective management processes in place, including reviewing and ratifying systems of risk identification and management, ensuring appropriate and adequate internal control processes, and that monitoring and reporting procedures for these systems are effective;
- Enhancing and protecting the Company's reputation;
- Approving major capital expenditure, capital management, acquisitions and divestments;
- Reporting to shareholders;

- Appointment of Directors; and
- Any other matter considered desirable and in the interest of the Company.

The Board is responsible for the overall corporate governance of the Company, including the strategic direction, establishing goals for management and monitoring the achievement of these goals.

The Company has adopted a formal Board Charter which is on the Company's website. In broad terms, the Board is accountable to the shareholders and must ensure that the Company is properly managed to protect and enhance shareholders' wealth and other interests. The Board Charter sets out the role and responsibilities of the Board within the governance structure of the Company and its related bodies corporate (as defined in the Corporations Act).

Senior executives are responsible for the ongoing management of the Company's operations and report to the Board through the Executive Committee. They are accountable for all functions that are necessary to the operations of the Company and not specifically reserved to the Board or Executive Committee as the case may be. Senior executives' performance is reviewed on a regular basis by the Board.

Board Composition

The Constitution of the Company requires a minimum number of three Directors. There is no requirement for any shareholding qualification.

The membership of the Board, its activities and composition is subject to periodic review. The criteria for determining the identification and appointment of a suitable candidate for the Board includes the quality of the individual, background of experience and achievement, compatibility with other Board members, credibility within the scope of activities of the Group and the ability to contribute to Board duties and responsibilities.

The background of each Director is set out in the Directors Report section of the Annual Report and on the Company's website.

Retirement, re-election and appointment of new Directors

The constitution of the Company notes that Directors cannot hold office for a period longer than three years without submitting themselves for re-election at the next AGM, one third of the Directors must retire by rotation at each AGM together with any new Directors appointed by the Board during the period since the last general meeting. Retiring Directors are eligible to stand for re-election.

If the Board decides to appoint a new member either to complement the existing members or fill a vacancy, it goes through the process of identifying a wide base of potential candidates with appropriate skills and with a view to meeting the objectives of its Diversity Policy. The Company ensures that all appointments to the Board are appropriately referenced checked in addition to individual criminal and bankruptcy checks. It also ensures that all relevant information is provided to security holders for the purpose of deciding on whether or not to elect or re-elect Directors.

The Company does not have a formal induction process, however, new Directors appointed to the Board are provided with written material incorporating Financial, Corporate and Operating information in relation to the Company. In addition they are provided with a detailed appointment letter outlining the Company's expectations and setting out the requirements of the role as well identifying director interests and potential conflicts.

Role of the Company Secretary

The Company Secretary is appointed by and accountable to the Board, through the Chair, on all matters to do with the proper functioning of the Board. The Company Secretary acts on all Committees of the Board except the Executive Committee.

Each Director is able to communicate directly with the Company Secretary on all matters relating to the functioning of the Board.

Evaluation of Board Performance

The Group has a formal process for the evaluation of the effectiveness, processes and structure of the Board, and as such complies with Recommendation 1.6 of the Corporate Governance Council.

The Board undertakes an annual formal review of its performance and this process has taken place during the financial year. It includes the completion of individual questionnaires focused on Board process, effectiveness and structure as well as the effectiveness and contribution made by each Director. The responses are collated and discussed with a view to considering recommendations for improvement and/or appropriate changes.

Evaluation of Senior Executive Performance

The Chairman and the Chief Executive Officer undertake an annual review of the performance of the Group's executives during the year, complying with Recommendation 1.7 of the Corporate Governance Council.

Diversity Policy

The Board has adopted a Diversity Policy as per Recommendation 1.5. The Company is committed to ensuring a diverse mix of skills and talent exists amongst its Directors, officers and employees and is utilised to enhance the Company's performance.

The Board is responsible for monitoring Company performance in meeting the Diversity Policy requirements, including the achievement of diversity objectives.

Gender Diversity

The Board has established 'measurable objectives' for achieving gender diversity and to report against them on an annual basis. The Board is reviewing its practices with a focus on ensuring the selection process at all levels within the organisation is formal and transparent and that the workplace environment is open, fair and tolerant. Some of the measures to assess the success of the policy are set out below.

Measurable Objectives

Objective	Outcome
Review and amend where appropriate other Company policies to align with the Diversity policy.	The Board has reviewed Board, and Board Committee Charters to ensure they reflect the objectives of the Diversity Policy.
Monitor the gender mix of the Company and of the Group over time.	The Company has compiled a summary of staff including gender and cultural diversity for the past and will continue to do so.
Structure recruitment and selection processes to recognise value of diversity.	The Company encourages an open selection process which focuses on relevant skills.
Have clear and transparent governance process around reward and recognition.	The Company has a remuneration charter which encourages rewards to be transparent.
Develop succession plan for the Board with aim to increase representation of women on the Board, subject to identifying candidates with appropriate skills.	The Company has reviewed its current composition and is developing a succession plan.

Women Employees, Executives and Board Members

The Company and its consolidated entities have one (2016: one) female employee and/or executive who is located at the Company's head office.

This represents approximately 7% of the total employees, executives and/or board members of the Company and its consolidated entities. There are currently no female members of the Board of the Company. Unfortunately gender diversity has suffered as a result of a forced downsizing of the workforce.

Principle 2: Structure the Board to Add Value

The Company's practice:

Nomination committee

The Company does not currently have a separate nomination committee and as such has not complied with Recommendation 2.1. The duties and responsibilities typically delegated to such a committee are dealt with by the full Board. Given the size and nature of the Company's activities the Board does not believe that any marked efficiencies or enhancements would be achieved by the creation of a separate nomination committee.

The Company does not have a formal induction process, however, new Directors appointed to the Board are provided with written material incorporating Financial, Corporate and Operating information in relation to the Company. In addition they are provided with a detailed appointment letter outlining the Company's expectations and setting out the requirements of the role as well identifying director interests and potential conflicts.

Composition

The Directors have been chosen for their particular expertise to provide the company with a competent and well-rounded decision-making body and which will assist the company and shareholders in meeting their objectives.

As at September 2017, the term in office held by each Director in office at the date of this report is as follows and details of the professional skills and expertise of each of the Directors are set out in the Directors' Report.

Name	Position	Term in Office
Mr Gary Lyons	Non-executive Chairman	7 years and 3 months
Mr Tien Seng Law	Non-executive Director and Deputy Chairman	7 years and 2 months (appointed 21/07/10)
Mr Michael Wilson	Executive Director	16 years and 10 months (appointed 18/11/02)
Mr Kong Leng (Jimmy) Lee	Non-executive Director	6 years and 9 months (appointed 08/12/10)
Mr Chin An Lau	Non-executive Director	6 years and 4 months (appointed 25/05/11)
Mr Teck Siong Wong	Alternate Director for Mr Tien Seng Law	6 years and 2 months (appointed 27/07/11)

The Directors meet frequently, both formally and informally, so that they maintain a thorough understanding of the Company's business and ensure that the Company's policies of corporate governance are adhered to.

Education

The Company encourages Directors to maintain their knowledge of the specific matters relating to the Company including: the nature of the business, current issues, and the corporate strategy. The Company makes its expectations clear concerning the performance of Directors and Directors are given access to and encouraged to participate in continuing education opportunities to update and enhance their skills and knowledge.

Independent professional advice and access to company information

Each Director has the right of access to all relevant Company information and to the Company's executives and, subject to prior consultation with the Chairman, may seek independent professional advice from a suitably qualified advisor at the consolidated entity's expense. The Director must consult with an advisor suitably qualified in the relevant field and obtain the Chairman's approval of the fee payable for the advice before proceeding with the consultation. A copy of the advice received by the Director is made available to all other board members.

Roles of Chairman and Chief Executive Officer

The role of Chairman and Chief Executive Officer are exercised by separate individuals, and accordingly the Group complies with Recommendation 2.5 of the Corporate Governance Council.

Skills and Experience

The Board has considered the key skill sets that would be appropriate for the organisation in its present stage. Skill sets currently on the Company's Board include technical, financial, legal, managerial, corporate, and commercial.

Key skill sets identified as being appropriate for the Board include:

- exploration, mining and development;
- accounting and corporate finance;
- business and industry strategic planning;

- risk management;
- environmental and health and safety.

The Board is presently comprised of five members, four of whom are Non-executive and one Executive Director. At this stage of the Groups development the Board believes that there is an appropriate mix of skills, experience, expertise and diversity on the Board. In the coming years as the Group assesses development options additional expertise may be required and at that time further consideration will be given to ensuring the Board has an appropriate mix of skills and diversity.

Independence

Corporate Governance Council Recommendation 2.4 requires a majority of the Board to be independent Directors. The Corporate Governance Council defines independence as being free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of unfettered and independent judgement. In accordance with this definition, the Company has one (1) independent Director, with the Board comprising of a Non-executive Chairman, a Non-executive Deputy Chairman, an Executive Director, and two Non-executive Directors.

The sole independent Director is Mr Gary Lyons, the Company's Non-executive Chairman, and the non-independent Directors of the Company are Mr Tien Seng Law, Mr Michael Wilson, Mr Chin An Lau, Mr Kong Leng Lee, and Mr Teck Siong Wong (as alternate for Mr Law).

The Board is of the view that, given the Company's size and stage of development, the Board's current composition was the best structure for the Company's objectives during the period.

The Chief Executive Officer, Mr Craig Ferrier, was appointed by the Board on 12 March 2013.

Principle 3: Promote Ethical and Responsible Decision Making

The Company's practice:

Ethical Standards

The Company has a formal Code of Conduct as per Recommendation 3.1. This code outlines how Directors and employees of the Company and its related bodies corporate are to behave when conducting business. A full copy of this Code of Conduct is available on the Company's website.

The Company is committed to the highest level of integrity and ethical standards in all business practices. Directors and employees must conduct themselves in a manner consistent with current community and corporate standards and in compliance with all legislation.

All Directors and employees are expected to act with the utmost integrity and objectivity, striving at all times to enhance the reputation and performance of the Company.

Securities Dealings

There is no requirement for Directors to hold Company securities.

Securities Trading Policy

The Board is committed to ensuring that all Directors and employees comply with their legal obligations as well as conducting their business in a transparent and ethical manner. All Directors and employees (including their immediate family or any entity for which they control investment decisions), must ensure that any trading in securities issued by the Company is undertaken within the framework set out in the Securities Trading Policy.

The Securities Trading Policy does not prevent Directors or employees (including their immediate family or any entity for which they control investment decisions) from participating in any share plan or share offers established or made by the Company. However, Directors or employees are prevented from trading in the securities once acquired if the individual is in possession of price sensitive information not generally available to all security holders.

Additional restrictions are placed on trading by Directors, Executives and other key management personnel, as determined by the Chairman and Company Secretary from time to time ('Restricted Employees').

The Company has nominated certain periods which are trading windows during which time Restricted Employees can trade. Restricted Employees must also obtain written consent from the Chairman or Managing Director prior to trading in the Company's securities.

The Securities Trading Policy also includes a clause prohibiting Directors and Executives from entering into transactions in associated products which operate to limit the economic risk of security holdings in the Company over unvested entitlements.

Principle 4: Safeguard Integrity in Financial Reporting

The Company's practice:

Audit and Risk Management Committee

The Board has created a separate audit and risk management committee, which consists of three members, however, due to the size and current operations of the Company, the audit committee currently only has one (1) independent Director and the chair of the Audit and Risk Management Committee is not an independent Director, on this basis the Company is not compliant with Recommendation 4.1. The duties and responsibilities delegated to the audit committee include:

- reviewing internal control and recommending enhancements;
- monitoring compliance with Corporations Act 2001, Securities Exchange Listing Rules, matters outstanding with auditors, Australian Taxation Office, Australian Securities and Investment Commission and financial institutions;
- improving the quality of the accounting function, personnel and processes;
- reviewing external audit reports to ensure that where major deficiencies or breakdowns in controls or procedures have been identified, appropriate and prompt remedial action is taken by management;
- liaising with the external auditors and ensuring that the annual audit and half-year review are conducted in an effective manner; and
- reviewing the performance of the external auditors on an annual basis.

Audit and Compliance Policy

The Board imposes stringent policies and standards to ensure compliance with all corporate financial and accounting standards. Where considered appropriate, the Company's external auditors, professional advisors and management are invited to advise the Board on these issues and the Board meets to consider audit matters prior to statutory reporting.

The Company requires that its auditors must not carry out any other major area of service to the Company and should have expert knowledge of both Australian and international jurisdictions.

The Board assumes responsibility to ensure that an effective internal control framework exists within the entity. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial information. The Board maintains responsibility for a framework of internal control and ethical standards for the management of the consolidated entity.

The Board, consisting of members with financial expertise and detailed knowledge and experience of the mineral exploration and evaluation business, advises on the establishment and maintenance of a framework of internal control and appropriate ethical standards for the management of the Company. The Chief Executive Officer and Corporate Accountant declare in writing to the Board that the Company's financial reports for the each financial reporting period present a true and fair view, in all material respects, of the Company's financial condition and operational results and are in accordance with relevant accounting standards. This statement is required each quarter, half year and annually.

CORPORATE GOVERNANCE STATEMENT

The Company's auditor is required to be present, and be available to shareholders, at the Company's Annual General Meeting.

Principle 5: Make timely and balanced disclosure

The Company's practice:

Continuous Disclosure Policy

The Company has a formal Disclosure Policy this policy was introduced to ensure the Company achieves best practice in complying with its continuous disclosure obligations under the Corporations Act and ASX Listing Rules and ensuring The Company and individual officers do not contravene the Corporations Act or ASX Listing Rules. A full copy of this policy can be found on the Company's website.

The Company is required to immediately tell the ASX once it becomes aware of any information concerning it that a reasonable person would expect to have a material effect on the price or value of the entity's securities.

The Chief Executive Officer and the Company Secretary are responsible for co-ordinating the disclosure requirements. To ensure appropriate procedure all Directors, officers and employees of the Company coordinate disclosures through the Chief Executive Officer and the Company Secretary, including:

- a) Media releases;
- b) Analyst briefings and presentations; and
- c) The release of reports and operational results.

Principle 6: Respect the Rights of Security holders

The Company's practice:

Shareholder Communication

It is the policy of the Company to communicate effectively with its shareholders by giving them ready access to balanced and understandable information about the Company and making it easier for them to participate in general meetings.

The Board encourages full shareholder participation at the Annual General Meeting as it provides shareholders an opportunity to review the Company's annual performance. Shareholder attendance also ensures a high level of accountability and identification with the Company's strategy and goals.

The shareholders are responsible for voting on the appointment of Directors, approval of the maximum amount of Directors' fees and the granting of options and shares to Directors. Important issues are presented to the shareholders as single resolutions.

Information is communicated to shareholders through:

- the Annual Report which is distributed to all shareholders;
- Half-Yearly Reports, Quarterly Reports, and all Australian Securities Exchange announcements which are posted on the Company's website;
- the Annual General Meeting and other meetings so called to obtain approval for Board action as appropriate; and
- compliance with the continuous disclosure requirements of the Australian Securities Exchange Listing Rules.

The Company's website provides information on recent announcements, financial information, project information and governance information. In addition contact detail for the company and the company's media and investor services and share registry are all made available for security holders.

Principle 7: Recognise and Manage Risk

The Company's practice:

Risk Management

Recognise and Manage Risk

The Board has incorporated the oversight of risk in the charter of the Audit and Risk Management Committee. The Audit and Risk Management Committee undertakes a review of the Risk Register twice a year at the time of considering and approving the half and full year financial statements.

The committee reports back to the Board on its findings. Risk oversight, management and internal control are dealt with on a continuous basis by management and the Board, with differing degrees of involvement from various Directors and management, depending upon the nature and materiality of the matter.

The Company's policy is to achieve levels of operation that balance risk and reward with the ultimate aim of optimising shareholder value. The Audit and Risk Management Committee Charter is available on the Company's website.

Oversight of the risk management system

The Board takes a proactive approach to risk management. The Board is responsible for oversight of the processes whereby the risks, and also opportunities, are identified on a timely basis and that the Company's objectives and activities are aligned with the risks and opportunities identified by the Board. This oversight encompasses operational, financial reporting and compliance risks.

The Company believes that it is crucial for all Board members to be a part of the process, and as such the Board reviews all recommendations of the Audit and Risk Management Committee.

The Board oversees the establishment, implementation and annual review of the Company's risk management policies as part of the Board approval process for the strategic plan, which encompasses the Company's vision and strategy, designed to meet stakeholder's needs and manage business risks.

The Chief Executive Officer and Corporate Accountant have declared, in writing to the Board and in accordance with section 295A of the Corporations Act, that the financial reporting risk management and associated compliance and controls have been assessed and found to be operating efficiently and effectively. All risk assessments covered the whole financial year and the period up to the signing of the annual financial report for all material operations in the Company.

Internal control framework

The Company does not believe it is of a size that warrants an internal audit function. The Board acknowledges that it is responsible for the overall internal control framework, but recognizes that no cost effective internal control system will preclude all errors and irregularities. To assist in discharging this responsibility, the Board has instigated an internal control framework that deals with:

- Financial reporting - there is a comprehensive budgeting system with an annual budget, updated on a regular basis approved by the Board. Monthly actual results are reported against these budgets.
- Investment appraisal - the Company has clearly defined guidelines for capital expenditure including annual budgets, detailed appraisal and review procedures, levels of authority and due diligence requirements where businesses or assets are being acquired or divested.
- Quality and integrity of personnel - the Company's policies are detailed in an approved induction manual. Formal appraisals are conducted annually for all employees.

Economic, Environmental and Social Sustainability Risks

The Company is focused on the discovery and exploitation of mineral deposits and operates in diverse physical environments primarily in Australia. As a result there is some potential for material exposure to economic, environmental and social sustainability risks.

The Company is very aware of the potential for risk in this area and is committed to ensuring that sound environmental management and safety practices are carried out in its exploration activities.

Significant resources have been focussed on establishing and maintaining a culture of best practice, GWR is committed to environmental sustainability, recognising the Company's obligations to practice good environmental "stewardship" of the tenements on which we operate.

GWR's underlying goals relating to environmental sustainability are to minimise any adverse impacts upon the environment resulting from the Company's activities.

The Company's activities are conducted in a manner that minimises our environmental "footprint" as much as possible, and are conducted strictly in accordance with all necessary permits and approvals from regulators.

Principle 8: Remunerate Fair and Responsibly

The Company's practice:

Remuneration committee:

The Company has a separate remuneration committee, which consists of three members, however due to the size and current operations of the Company, the remuneration committee currently only has one (1) independent Director and the chair of the remuneration committee is not an independent Director.

Remuneration policies:

Remuneration of Directors are formalised in service agreements. The remuneration committee is responsible for determining and reviewing compensation arrangements for the Non-executive and Executive Directors, the Chief Executive Officer and the executive team.

It is the Company's objective to provide maximum stakeholder benefit from the retention of a high quality board and executive team by remunerating Directors and senior executives fairly and appropriately with reference to relevant employment market conditions. To assist in achieving this objective, the Board links the nature and amount of executive Directors' and senior executives' emoluments to the Company's financial and operational performance. The expected outcomes of the remuneration structure are:

1. Retention and motivation of senior executives;
2. Attraction of quality management to the Company; and
3. Performance incentives which allow executives to share the rewards of the success of the Company.

Remuneration of the Non-executive Directors is determined by the Board with reference to comparable industry levels and, specifically for Directors' fees, within the maximum amount approved by shareholders. There is no scheme to provide retirement benefits, other than statutory superannuation, to Non-executive Directors.

For details on the amount of remuneration and all monetary and non-monetary components for all Directors refer to the Remuneration Report in the Directors' Report. In relation to the payment of bonuses, options and other incentive payments, discretion is exercised by the Board, having regard to the overall performance of the Company and the performance of the individual during the period.

The Company's Remuneration Committee Charter is available on the website.
